

Oracle Application Environment Support

for a Leading Life Insurance Company

CASE STUDY

Efficiency

Comprehensive Oracle Application environment support led to business efficiency and faster throughput.

The Challenge

The customer required functional and technical support for their Oracle E-Business Suite. They required assistance on issues such as invoice integration, Works Contract Tax (WCT) setup, and customized report generation.

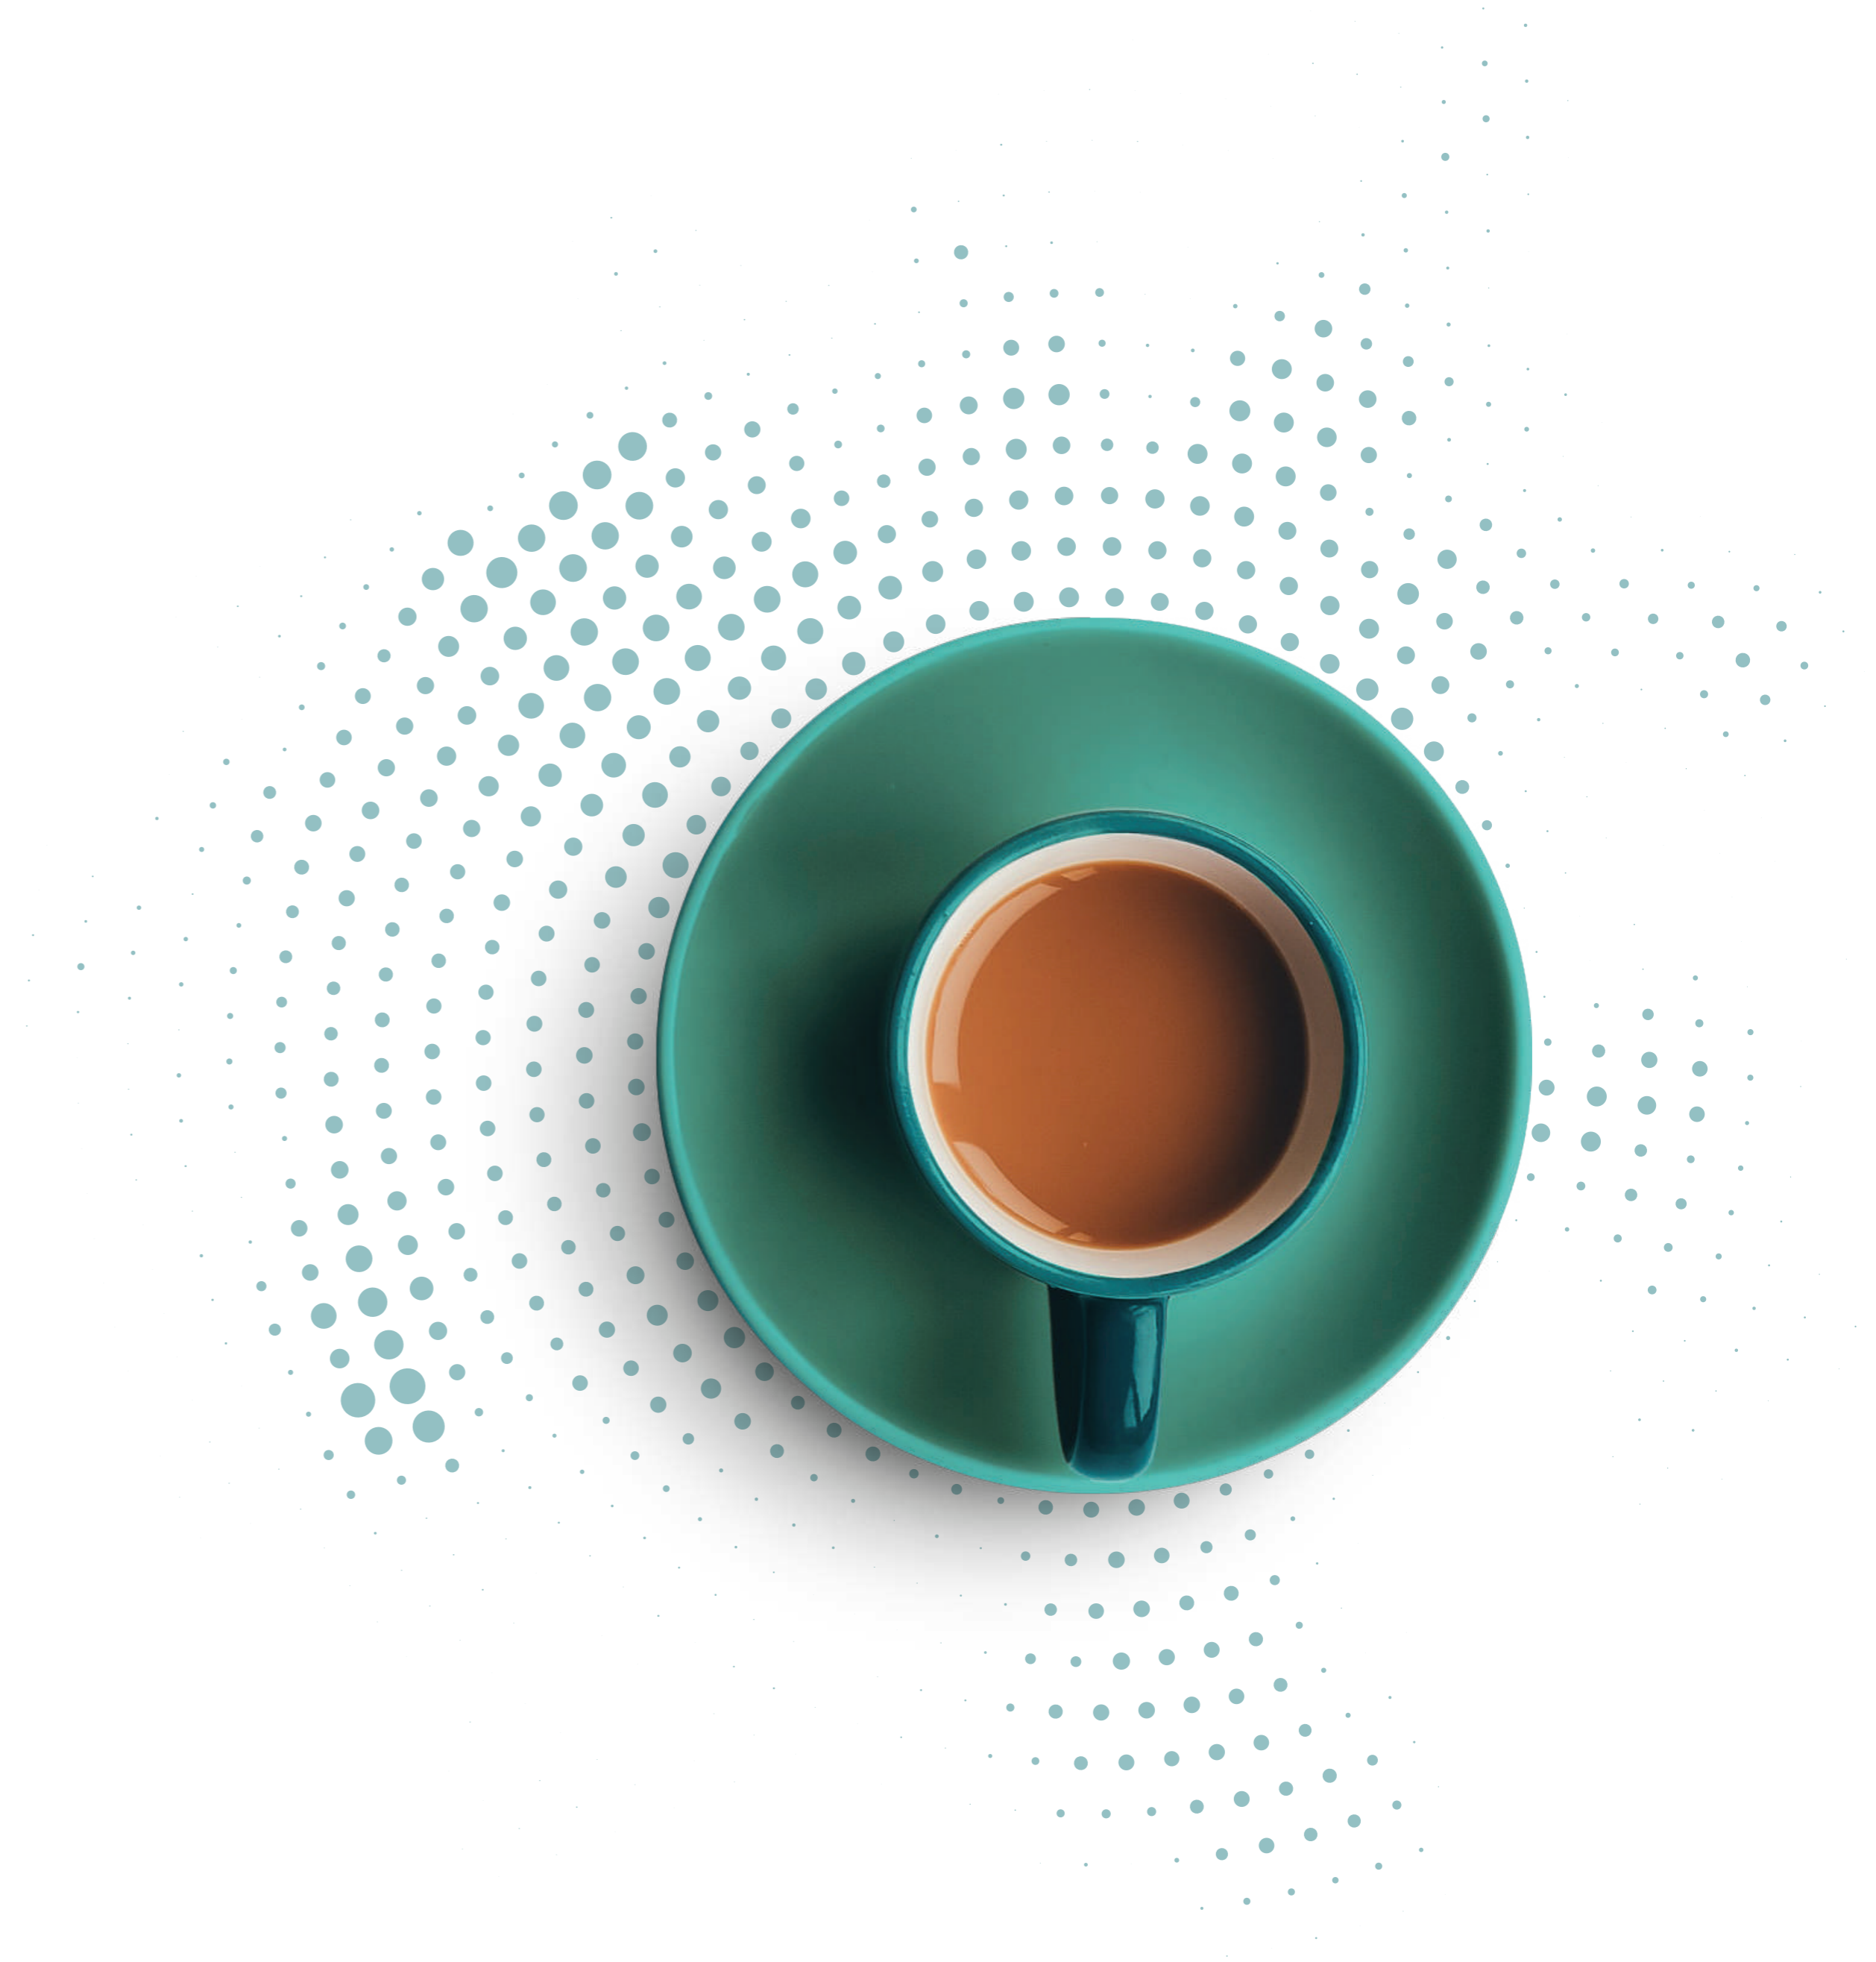

The Solution

Clover Infotech provided comprehensive functional as well as technical support to the customer for their Oracle Apps R12 environment.

We resolved all issues related to Invoice Integration. We successfully incorporated WCT setup thereby allowing the user to create vendors basis the states they must be paid in.

Our team also created a module to generate and customize reports using XML.
