Regulatory Reporting Automation for a Leading Private Sector Bank in India
We enabled a Bank to adhere to an important Central Bank (RBI) mandate and ensure reporting as per ADF reporting guidelines.
The Challenge

Bank’s critical data was residing in disparate sources and systems

Various applications of the bank were hosted on different types of databases such as Oracle, MSSQL, and Sybase

The bank wanted an internal MIS to facilitate a comprehensive view of the customers, accounts, transactions etc.

They wanted to ensure adherence to RBI mandates and ensure reporting as per the automated data flow (ADF)
The Solution

Clover Infotech enabled information gathering from various data sources and mapped it to a single database using Oracle Data Integrator (ODI).

After placing complex data into the semantic layer, Clover Infotech specialists implemented BO tools and developed advanced dashboards.

The dashboard enhanced reporting capabilities and empowered senior management with strategic insights.

Automated the reporting to RBI as per the ADF reporting guidelines ensuring that minimum supervision was required.
ABOUT CLOVER INFOTECH PRIVATE LIMITED

Clover Infotech is a leading IT services and consulting enterprise with a legacy in fostering digital transformation and business efficiency across industry verticals. With our comprehensive solutions to implement, integrate and manage technologies, we have been co-authoring success for some of the leading global enterprises for over 25 years.

The company has a strong pan-India presence. It serves its customers in Europe, Middle-East and Africa through its Dubai office and caters to the North American market through its office based in New York.
